# I - Thyroid

I've got mad distaste,  
I've got displacement,  
I'm sittin in a basement apartment thinking about satan and a vacation  
I'm a litmus test  
I deliver vitamins best in a wrestling match with a wave crest  
Day-vest got held like a paperweight  
808, 909  
im fine  
get a rest  
I arrived as a phantom  
attempts made to describe on Wiki Fandom  
attempts were made at random,  
it was left unexplained and then printed out a Scantron  
from the Cliffs of Dover  
I'm over this like a Land Rover  
Shoulder blade exposure,  
Happy ta stab with a rap can opener

I'll light a lantern  
you'll be the first to know when i can't earn  
banter amounted to nothing

Deal again, im the real good will hunting,  
hunting a dinosaur  
with raps that attract and make your mind explore  
I tore a toroid field in the non-porous,  
saw a gory appeal when i got bored of  
enriched and enlightened,  
i fight with it,  
but i don't get frightened  
I'm a doctor, you're unlicensed  
Rap prescription is the best advisement  
Chastisement is what a wise man meant  
when one's sent on a risky assignment  
I want more of those to baptize in  
Eyes intact when ya choose the right door of..

## 2- GONE THO

Tell once again  
who Lacked in Highness  
Treetop livin' in event of an island  
dynastic eyes got surprised when I'm in  
Jacked tha signup  
Add intent to tha typist  
Tell me if their goal it was delighted if i fit  
So easy like a lightswitch  
Into it with a kindness

Find these survivors  
Bustin like sirens  
Silence is golden then  
only when ur midas

So  
I guess i'll sleep when i want to  
I'll dream that i want you  
I'll think that im hunted  
A Wink to the bayou  
Am i you  
A deep breath  
A regret  
And jumped in  
Climb into the valley of souls I'm enrolled and  
not just elementary telemetry code  
But also a road  
It jumps out within you  
And tolls  
Down into the most vacant hole

Tack on an evidential low in the climate  
Some didn't know but define it as so  
Call the Wheel of Fortune in 2 rings on 2 phones  
Slow dial rotary and coterie mode  
Night view panned out to plan it out slowly as the only way to go  
You had to get to know me when the plot unfolds  
and thickens as a quickening is sickening and quicker  
if you're Left to tha cold

So  
I guess i'll sleep when i want to  
I'll dream that i want you  
I'll think that im hunted  
A Wink to the bayou  
Am i you  
A deep breath  
A regret  
And jumped in  
Climb into the valley of souls I'm enrolled and  
not just elementary telemetry code  
Meditate tho, on day 1  
day 2, stared into the eyes of a Sabertooth and made it true

## 3 - Cutlery

(instrumental)

## 4 - Aurora

Have you ever heard of a spark in your life  
That divides you?  
That divides you...

Have you ever heard of a spark in your life  
That divides you?  
That divides you...

Have you ever heard of a spark in your life  
That divides you?  
That divides you...

Every night i woke up still saying ur Name  
That's when i fell right thru the Window  
Pain!

Every night i woke up still saying ur Name  
That's when i fell right thru the Window Pane

I hope i die by a fire  
I hope i retire,  
I hope that i admire you,  
What i know is that a higher  
Version of a military fighter  
Set the entire  
Night on turn  
When i burned a hitchhiker  
With my words  
Eyes first then a lipbiter  
I wanna sit tighter than that  
In a night uninvited  
I refused to breathe in  
And then my lungs liked it  
Ripeness inside us signified in your eyes it's

Sirens sounding  
Hounding ignited  
Dire that you have a good founding  
A doubter  
Can pull up in a necessary cloud  
And get out of it  
What happened next is the  
Proudest moment  
I'm out of it,  
But down for atonement  
Don't seek you out for a phone call and i'm over it  
Don't seek you out for a vanishing moment  
I played ahead i admit  
I'm known for it  
I want you versus all the other bonuses  
I want your dna though, not ta clone it  
Well if you've got some love then loan it...  
I Don't seek you out...  
I Don't seek you out for a phone call and i'm over it  
I Don't seek you out...  
I Don't seek you out for a vanishing moment

## 5 - Anadonis

Here's an allegory about long ago when  
I sat in a room and the room would blossom

Tall tales stop in  
Nonsensical option  
Tropical to soften  
Who are you accostin'?  
Off in the hint of a wind like i'm ballin' so  
Toss in the towel if appalled then  
Im off of  
Beneficiary need to call in Apollo  
I've got tha star-gazing in a backyard cauldron  
Play hard ta all them  
Play soft ta' Paula  
Play the game of life when u lack the installer  
Caller, I can't get you on the line, I'm fine tho  
I opposed a slight roast and  
wound up at a signpost  
Diagnosed!  
And lashed out off being rattled  
They said i came to after 70 battles  
Woke up as a werewolf devouring cattle  
Woke up as a vampire it's not hard to find a  
Mind to heist on though  
Onward and upward  
I check the stereo in mono  
Until it's southern enough  
I could've sworn that i had u in my cluster  
Probably dead i see a bonafide buzzard  
What is it?!  
Aww  
A clasp of tha tha right claw  
Ripped to pieces from tha  
Daybreak ta nightfall

It might stall  
Yeah right all right i heard ya  
Bleeding from a night jab a  
Stab of a curtain rod

I could assert massage  
Upon a pure visage  
Put on a pure facade  
You're so demure you're robbed  
I thought I had a lock!  
Clock abruptly stopped dropped in oxygen  
Not to discount the amount left for offering  
Offer whenever  
Off to endeavor  
In a contract to be modest when competent

## 6 - Close

I know you have an expired pharmacology license  
So tell me...  
How did I know?  
So tell me did you poison me?  
No!  
I guess it was something I ate long ago...

I know you have an expired pharmacology license  
So tell me...  
How did I know?  
So tell me did you poison me?  
No!  
It must've been something I ate long ago...

And ever since I saw you...  
I knew you were the one

And then the lights came on  
and then the lights came on  
Then the lights came on  
and then the lights came on

And at the surface it was integrated  
I didn't know what I had instigated  
I felt true, I felt elated  
I felt you it was so insulated

And then your lights came on  
and then the lights came on  
Then the lights came on  
and then the lights came on  
and Then the lights came on  
and then your lights came on  
and then your lights came on  
And I knew that you were safely home

## 7 - junkman's daughter

Standin' in tha blast zone for days  
I found then foundry  
We can go get it appraised  
Allow you now me  
But it's gonna take up a page  
Of doubting  
Abounding love  
And u know what im speaking of cause  
Trade ya for a minotaur and  
Wound up in a haze  
Found another case of you in  
"it was just a phase of"  
Wake up a night if u really want the day so  
Now only excuse is that i'm made all out of clay  
With a relay

Found all of my evidence in  
Instant replays  
Sat with it for 3 days like it was a keepsake  
Would've rather had it in an evidence safe  
But now i'm on the lake absorbing more recorded tapes

Found out that you were a cold case  
in so Many ways  
buried in a mound of promenade  
And toll lanes  
Scrounge then  
Out in  
A place without a name  
I'll be unaccounted for around an enclave

## 8 - Stew

Comin back at you just like papyrus  
i sit  
in the company of highness, ID?  
women get smitten  
when im hittin on  
niche is behavior adaptive,  
forbidden on a level that doesn't seem reactive  
acid  
poured into a flask it's a drink  
you can have it  
i'll take some  
and i'll take a number  
great was the buzz and  
long was the slumber  
come to the wonder of feuds

it's real  
and if ya come ta battle then u really know tha deal  
tha deal is this  
i rip all procedure  
condone surgery and  
do it at my own leisure

a lion for the leaker  
a trade on the high-end  
day-only buy-in  
need ya  
banker  
cantankerous ether  
need ya like a light goal  
don't need ya i'm told  
read up  
valid  
all i need is salad  
and a ballad for a keeper  
an adequate sneaker and a  
well-balanced speaker,  
beaker for a scientific experiment  
irritant to the teacher  
'cause this teacher never a student in fact  
can't become that  
like a believer  
i see you,  
and i see you thru  
like a T-shirt  
key assert  
put it all in reverse

An element of reverb,  
Taps tha reverb hall  
Engineered with the habitat of research  
Affect tha subwoofer,  
Tha mid,  
Tha tweeter  
Affect neighborhood for duration of the lease term  
Positive effect  
What a concept  
Thought process now aside from intellect  
Like to collect up in 4d chess  
5d breathin with tha Hip Hop I.V.  
Nightly even with tha  
Day being rightly  
Divided into lyrics and  
The other half anxiety  
See me curled up in a ball i told ya so  
Cause i can list the demons off for you in a row  
I might go slowly especially if  
Extolling and holding on a specialty grip  
Rip for tha savage  
Rip for tha barren  
Rip for those that were told rap is donna karan  
Rap is donatello  
Moreso  
Or no,  
Hip hop is that and then the  
Rap you can forgo  
Wanna go  
To the show  
I take a teleport, oh Hey you didn't know?

I take it to the torso  
Condoned with the rightful  
Burn up pretenders like a  
Flag or holy bible  
I'm vital  
Hit the chest just like a knife or military rifle  
I'm liable  
Fighting for the viable  
Latched in propriety

## 9 - Religious

I told myself that I wouldn't play your game  
And I told myself that I wouldn't say your name  
But when I get too close to your flame  
I'll never be the same

Oh heaven,  
give me strength, why try  
That wasn't love that was hate in your eyes

## 10 - Acrylic

Comin back at ya just like corona virus  
look into my iris see if im Stoned or not  
all my raps are written on papyrus in the zone of  
get a tattoo of ya like Winona  
change it to a wino  
find those  
aks buried down in Arizona  
loan up  
i know you have the time yo  
skills alone are all tha  
bona fides  
i need ta  
hit em like a lightpost  
yeah, one proviso  
ya lance it thru the body to the zygote  
i know  
phosphorous  
is in there with preposterous  
life boat type o' material  
and a  
serial inferior because it was a copy  
a sloppy interior  
velocity  
atrocities  
i do it every time no reciprocity  
i oftenly  
get mistaken  
and take misses

you can't have a hit if you're too timid to glisten  
Listen,  
i bust out  
just like a prism  
light beams forward  
where before it isn't  
Calling to the cattle but they seemed indifferent  
Alien Abduction buzzin' off in the distance  
sentences they can form paragraphs  
but a pair of graphs can capsize a business  
instances like this rushed through my mind  
as other life forms experiment the intrinsic  
short was the incision  
probably put a chip in  
put a rhyme chip in  
now i rhyme so livid  
I'm livin' for a dividend  
and choosing right lipids  
i asked her for a palatable draw  
"i'm with it"  
i keep it simplistic  
unlike a ventriloquist  
im ill at this  
reduce a phone number to a digit cause  
kinesthesia is my thesis in pieces  
i need it!  
until im found bleeding in tha ditches

## II - Incision

unbreakable hate  
yeah it's slate to a diamond  
Wanna placate  
I'd rather stay pinin'  
Those unpublished  
Always wanna chime in  
Yeah u got a girlfriend?  
Ur girlfriend wanna sign me in  
Time for a whirlwind  
a whirlwind with lightning in it  
Tile a mirage over Joshua's sentences  
Opportune cynic or a menace or an infidel  
Light-up pinnacles since are definitive  
Innocence then  
Wanted but tempted  
Can't drink in if ur friends are defenestrated  
wanted connection gold plated  
Remove a magistrate  
From tha demonstration!  
In asia erased in inertia i made ya  
Impatient  
graced in  
Day dysphagia  
Ingrained in Layman's terms you will lament  
Terms and conditions to be  
with ya to tha day's end

Wake up lately in the cayman islands  
Wake up again in my room so silent  
Night and day really have no divide in time when likely to be on assignment  
Tie me  
Back in an hour refined then  
Type in 9 10 19 and ID  
Number beside me  
And u will find then  
me or a clone in a  
rap sun visor

## 12 - Undying

I always wanted enrichment and healed health  
until i realized that the eagle flies alone  
so i want atonement for not wanting lonely  
I messed a toenail up upon tha doornail  
when i phoned the  
number that ya gave in the phonebook  
oh look,  
it wasn't listed i missed it  
i musn't go now but there was a tornado  
it slung me to tha wave-flow  
ocean was a scapegoat  
i missed the door now and i hit the floor now  
you're at my core now i don't want this core out

it was so homey,  
it busted painting of the mona lisa,  
it had to know me  
it sensed it was a broken piece of  
camaraderie  
how to top the best lobotomy?  
I want slices of ya on a  
Key Lime Odyssey  
i missed the door handle and hit the doorbell  
will heaven forgive or am i back up for hell on  
earth  
gems to the side for my net worth  
it's time to end the search  
let's meet in Fort Worth  
and plan the rest of our days for a sizzle and  
Be Out!  
yeah the rest is the oyster or a  
treehouse  
see that cloud in the sky?  
it looks rather normal but you look rather nice  
on the platter  
yeah i swoop so to fatten,  
While I'm basking in a pasture over past your eyes

## 13 - Sigil Star

(instrumental)

## 14 - Stance

I found the word  
simple and couth  
I tend from the youth  
youth in game  
youth in sameness  
used to be saneness  
tired of that  
I'm tryin ta move  
who wants to be sinister when center is smoothed out  
and trying to be basked in a super illusion  
i'm wired off that so  
find me a mood  
inspired on that  
i tried tha proof  
can't hand it to a loose cannon,  
standing suicidal thoughts  
i tied tha noose  
tried to unloosen it  
wasn't of use  
it wasn't abuse  
i pried tha roof  
open with one of those insider moves  
hide-away grooves  
i tried ta soothe

Found a soothsayer with a saber-tooth  
out and about in the days we took pride in dues,  
Idle move, movement idling  
moving toward an idol which i'm trying ta lose  
Kind of confused and bamboozled by blues in the  
Mean time, seem fine, magazine nine  
feet from the entrance of a wall  
as it stands tall,  
magazine reams make a b-line  
for it all  
take care want to seem fine  
you've had enough and were stuck in a streamline  
Computer a feline, tumor was benign, steps from the left of  
the entrance of a kingline  
heaven-sent evidently i was reticent  
steps through the roof and now proof is the precedent  
Edifice simplified, not heaven-sent if i  
tell event  
as a televised element  
don't second guess on the steps to the hell of this  
pelvis inflicted tha  
truth is irrelevant  
mother was celibate  
how could she bear a kid  
there goes that stare again  
do not be arrogant  
u know that top is defined, by  
meaning that it's top of the line, that is hindsight  
waiting for a wisp and a sign  
a whisper inside  
a flicker of light into limelight

don't second guess on the steps to your loneliness  
solely existent when wishing it finite  
gotta say good-bye, goodnight, twice  
only advice was abide by the guidelines  
i tried! my nights ended in  
iodine caplets wrapped up in cyanide  
im fine, im finding it out  
pining about for tha  
rowdiest diatribe  
i arrived  
why alive, why dead?  
why a life when you're right in your lowly head?

so Whisper a sin gently into my ear  
Crystal wind  
Brought you so near  
Don't second guess me  
You won't find  
Anyone else but me right here  
Wide was the wager  
High for the page  
You want life  
I'll die for today  
Mess it up fully and  
Return partially  
Mess it up graciously  
Fix it up artfully  
Fixed in an arsenal dart to tha artery  
Glitches like "pardon me"  
I'm like "hardly"

How do you know that this glitch is a part of me?  
Because not to do it feels like a sin Cardinal  
Winced at a particle  
Feeling so portable  
Looked at an article  
Kind of recordable  
Mind affordable  
Find your place  
Whether beside or in regular space

so  
Whisper a sin gently into my ear  
Crystal wind  
Brought you so near  
Don't second guess me
