sit in dark cold temperature it
gets ta her
she dons a moniker
it's more sensitive
other friends don't seem to be very
inta her
she hits tha streets again
this time Inventive
more than the night before...
side street closed had to take a detour
always looking over on a shoulder for a
nemesis
waiting for the end defenestrated
it's tha Genesis
sentiment is symbiotic
she just doesn't know of one
she just needs a noah's ark
she just wasn't meant for this
she wants to be joan of arc on
new age premises
sent a notice to me it was
geared to tha venomous
sent it back twice but tha
address was tentative
checked up on her pad but a different lad had
rented it
checked with her dad once
but there im just a minimalist
a syllabus approacher if i know her then im inta it
sit up like a chemist is
overnight on interest and
benzodiazepines alone until he finishes to
see if i can't bring us right back from tha depths of hell
if i did
it'd be
a well-worth sentiment
reality is different
i knew it when i entered it
truth is more like proof of an
ever-carried bitterment

i carried to tha entrance
and dropped it for tha benefit if
it was meant for me then i would
sense that i was meant for it

do what you want to freely
just let me be me
and we could have made it too
and i still stand with you
and i'm over myself
and i'm never over over you
that's what now speaks too
... like a roaring lion or a diamond

sit back and check all your temperature lines
some on tha rise some on
tha decline
once she was mine my
countenance would shine
now she's in
vine city
probably on tha fine
my sort of mindstate
stays on tha sine wave
if you can afford it you
consider and then demonstrate
elaborate and dabble late at night
until you innovate
try your best to be a drop or
ray that doesn't
dissipate

03 Tha Fuck Up

a night
that seems
ta crash
in line like a
bat with his wings out ready ta Fly!

hard to define but it's not so divine
everybody in a black mirror By Design!
tell what ya find
a ghost or a host of yourself
lower version
that can't be denied
fried in a frying pan
fried outside when i
died seven times and then came back ta
life
Ripe!
with a calcified third eye
try telling demon come and take my try cause im
Light!
shining in tha darkest of times
a 9-round fight
ta have clarified mind and
wind down
take time ta read tha sign out
seem not to move but ur
Not paralyzed
i'm out, here
of ideas and a
guise
life seeming too short ta
be analyzed
either way
i feel around feel for tha vice
zeal for tha heist is really not a deal
price cause i
called a clone twice and
it did not impress me i
stuck to my own and
unfolded in tha reverie
and colder than every ice
i endured as much like a
temperature entered in device as a
complete negative spike
cut both wires as it gelatinized!

Be Be Be Be Be Be Be Be Be Be Be Be Be Be Be Be Like
Me Me Me Me Me Me Me Smoke
Weed Weed Weed Weed Weed Weed Weed Weed

a night
that seems
ta blast
your mind
like a demon with his
claws out
Ready to Scry!
wanting your eye but a
tooth will suffice like
Chinese Prison Camp
Vomited Rice!
VIE!!!!
like you have it all inside
some only say that we get one life!
and they're right
i really live mine like a knife
going in hard and never pulling out twice
Find You!
with enough light ta blind you
unreported problem cause you
felt energized...

standing one night in dark cold-
temperature'd room
i found horizons
that i didn't know had a zoom
zoom like a meeting
to a human greeting
you'll be believing that
i was retrieving when
i tatted up tha stall,
it meant nothing like a
sinister walk
gall like an organ
affordin' a
gorgeous sword and absorb it
torrid abhorrent
that's what i say to her

scorch in tha scourge of an interim's urge
incur an intern
geared toward magnanimous
vote on your life if u make it unanimous
sand down tha plaster or alabaster and
turn..
did you wanna learn?
stand with a bee's nest
get damned ta regress
stamp out an egress
clamp down on neediness
check out the products of
greediness see
it's kinda hard ta spend with a
brain entropy and
if ur inta me then that's
all that i keep
grounded and around when re-
sources deplete
or fly like a phantom
try like tha handsome
fry like a Samsung and
stay on your feet
what does it matter ta me....
i still climb towers like a
half-broken beast and i
have spoken At Least
At Length
down at tha brink of tha
land and tha sea
found a patch of flowers where i
planted a seed for a
tree
and out rose a demon of me
i told you
down there it was cold too
old too, moldy
and tha floors creaked
i pleaded that i Wanted ta leave,
a voice from tha depths said there's
no Reprieve!

in a black night
you fly in disguise
why i spotted your eyes
dotted across the sky

why sit at night for a
cold wind ta turn
i could rather conjure and
burn away in an urn
pages that didn't turn
into generators
singe them
scold them
in incinerators
why incentivize when it
All Could Be Surprise
Font correct type but it
couldn't be kerned
or learned, in a night, the right way
days go illegitimate unless you discern

05 Magnum

i rip you
til you're torn
side of my bed will you adorn cause
i take pride in
what i collide with
stab like Poseidon
that's the side in
side of an elephantus tend to corrode
not done on you until it's scent a la mode
bent out of shape like some
bows and arrows and a
broken wheelbarrow
walking on the narrow
field just enough ta Feel what's
real

buckle my belt and let's
seal the deal
you are here to stay like a cadence
not coming down with a minimal surveillance
assailants aside,
i intervibe
nights intertwine with a
wind-down behind ya
don't let a wiseman
find ya Baroque caravaning
Christmas carols with the antelopes cause
we might find ourselves in a predicament
enough of tha suspect and lust at the filament
drill a bit more
she implores
no need to torque cause i'm right there behind ya
chewing on a fisherman's wall,
price that a peasant pays
to bear all
and i don't need to stall anymore,
for i already absorbed all of my 3 doors

one had adventure
one had regretful
one had a hideout where
i stay nestled
chew on a thistle to
cave your dismissal
eviscerated
not reinstated
and tinkled on a Kimball
to act like a thimble
In time we will all unwind
and
then in the center of inside will ya find
diamond tinsel
wrapped around your tonsil

06 Exoskeleton

standing on the edge of an edifice's tomb came a
grandson with a ransom hard to consume
one had a briefcase and within it
was enough cash to dispatch you ta
limitless
only one catch was ya had ta eat and finish it
kindly ingest it
ask any professor
what makes them profess and yes it's only
gestures
i have no time for pressure cause i
only have a minute

i tried emdr
it diminishes
i tried it like cpr to
replenish me
and connect hemispheres and
forget remembering
all it seemed to do was make my
brain one mystery
have some misery have some fun but
don't have a traumatic
repeated history cause
that can cause chemistry to
do a somersault
and you will fall asleep thinking
you're at fault

while it's true that it could be you
have to assay after an interview and im
climbed out
of that crew and also
timed-out
why doubt outside when ur
inside without a doubt and
now with tinder, kindle, and fire
everything that conspires
is a mind-bender
what happened to 1-on-1 connection

why everybody became a projection?

my theory, it's eerie, it appeared before me
and it told me such a riddle that i made a story
one had a man with an
outstretched hand
same had a woman with a different plan
both had a household with
two children and land
they all felt alone or entirely
cramped amidst a retirement plan
i guess from the wilderness i properly scan....

take what i said and eject it from ur head,
we all have opinions and we wind up dead
some stay alive if you do a deep dive though
join me
we will reassemble as a zygote and
why go to great lengths, or the brink of
insanity just to prove you're not a psycho
i know how it is, i'm right With ya
trying every day to be myself but paint a different picture

07 Tiny Abysmal

I'll tie you up with chains
Don't act like you don't like it

I'll tie you up with chains
Don't act like you don't like it

I'll tie you up with chains
Don't act like you don't like it

I'll tie you up with chains
Don't act like you don't like it

'cause
I'll tie you up with chains
Don't act like you don't like it
i'll tie you up with chains
u wish they were whip chains
I'll tie you up with chains
Don't act like you don't like it
'cause
i'll tie you up with chains
u wish they were whip chains

hit tha fast lane now my brain's rearranged
5 seconds ago you were at my window frame
blame all damages on those without pain
not me!
i operate from a stable plane

not been around enough to claim, i guess
dressed in the jeans that received a coffee stain
those nights were off guard and to put it to ya plainly
i do not need find a perfect space,
amazing!

life that i have is mired with the bad
that's how i like it that's
How i'd rather Have
cause that way i know what to eradicate
i base a daily life like a fad with a

Lohan badge
a photon exaggerated
a photo filtered with
an arm out
exonerated
now ur put into my matrix forever
if ya try ta leave it it'll
be inanimate endeavor

i'll tie you up with chains
that's how you will like it
i'll tie you up with chains
you wish they were whip chains

08 Voyager

please dont
please dont leave
please dont leave
please dont leave
i need you

imagine my surprise
when u turn-ed and walked away
i did not know that in my guidebook it
says that
we shouldn't, shouldn't talk everyday
imagine when my guys
when they come over uh and say
where is ur girl?
she's in a different part of the world
yeah yeah
she's gone away

09 Gorx

sense is what you made to me
cents is what you make of me
even tho adorned in royal sash and
purple drapery
i paid a fee
not for the servant mode in me

coterie
meet me there at 3 i have a lot of tha
tree to
divulge to thee
it has roots in 2 mood rings
black is all you ever see
even though im supposed ta
notice things like
garden hardening like potpourri i
focus each and every moment on looking for
atonement openings
and gasp when i miss tha zoning notice
hoping that it didn't apply to me!
Cold is all you ever breathe
the sun is all i never see
even though tha lunar moon will carry its light from
here ta Open Seas
hopelessly
i watch tha moon
and see all tha doom it's
Reflecting
all the while it's motoring
hoping in tha morning it can
cope with me
go to tha east
please stay left
on ya like a coach would be
even though i've been known to zone out like
on the highway ta
Bowling Green but
holding true is a
Holy Ring
kiss it when you hold it please
nah just rather hold me when im
old and lonely moldy green
it's happening
we go together
it's happening to you and me
there is no detection mechanism
to correct tha Overswing
im hovering
over you
missing you is what i'm shouldering

don't believe me?
check the rights
it was signified by a Notary

Will you
Pretend like you're my wife
I will not steal your life

i wanted to take this a minute
make it many minutes so tha
momentum replenishes
sent a letter to me but then u forgot to send it
send it back again
i won't let it diminish
i know i was near you when i could never fear you
and peered thru a peephole and saw you at the entrance
at last
a readable actual admittance
i promise to admit 1
for all time
with accuracy

Will you
Pretend like you're my wife
I will not steal your life

give like a cpl in my hand
i'm with it
can not find a drink to take it down
i did it
can not find a knife to open up
i bit it
wanted you to blow it over to me
Ridiculous

saw myself in digits
only some distributed
give it to me like an open hand
i kiss it
miserable nemesis is me
so pivot
forget it
i'd rather have you than a time limit

give like a cpl in my hand
i'm with it
can not find a drink to take it down
i did it
can not find a knife to open up
i bit it
wanted you to blow it over to me
Ridiculous
saw myself in digits
only some distributed
give it to me like an open hand
i kiss it
miserable nemesis is me
so pivot
forget it
i'd rather have you than a time limit

11 Predorate

standing one night on a full blood moon with a
drink in my hand that i had to consume
i ran for a tomb
i ran, i ran
i got up to speed that my
bat wings grew
now that i got to it
found it exhumed
i guess it's like a memory of me and you

in my
headphones?
all i think about is
Deadbones
we were alive once
and we were Pleasantly known
....

...found a corpse
right where we used to have a thriving front porch
i guess it's like a door that you just
can't open anymore
i tried!
even with tha lock pried No
guess i had ta go try tha
back window and found it
a note on tha ground it read
nothing
it was from you from tha dead

and the witch's brew, is for everyone!

give me a taste of my own decent past
give me away if ya think it won't last
i'll remain in the same mummy cast
around me,
tha pyramids and cloudiness

i really hate ta ask but i
noticed that ya masked
your atlas, agenda, and general rowdiness

was that really because...
you felt that ya never got a taste
of true love?

i know how this can be
trust
but don't
every grain of trust, built in zones

i phoned
fanged
and received a strange
answer
it had like a canter

breathing only
coldly
on me
i could hear the sound of yawning
calling me

went to the awning
not meant to call you
might not go thru
might not see you

when i arrived you had already died
looking straight up with the worms inside
guess we'll talk in a different life
on that and me you can rely

12 Liberitum

Red stems
on roses
on your blue shoes
that you pose with at
90 degree
angles
at an outside table
im lucky
you approached me
before then i was
coasting
now 3 plus yrs so
lonely
it appears now that i only want to

Fuck you!
love you!
Fuck you!
love you!...

night sets in and it's a different time
day sets in and i can't draw the line, better find it!
gotta get behind her in some
Form
and tune to the preferable norm
i might be let in if i say tha right scorn
it's like a secret password
even if it's backwards
sign me with a mirror if ya
kindly wouldn't mind i'm on tha
plastered list until i
feel im meant ta climb your

Roses on blue shoes
now i'm speaking Zulu
to you and my
english
has now been relinquished to

Fuck you, love you
Fuck you, love you...

Day sets in and i can't get my mind
wrapped around the being that pulls a razor wire gotta
time it right like It depended life gotta
send It right gotta
send it to the right one
i would amend it but it wouldn't be the plight
of a
rightful owner
sightful sorcerer
store it in a shed with a well-equipped light and be all right and
tighten up your grip as if ya had a second

13 Layer

9 times out of 10 they say to me
this is tha way it has to be
ur destined for a catastrophe
now i wanted to know if tha cards see
so i walked in for a tarot read
tha fortune teller could barely read
now i can tell you to a tee
the ace of pentacles knows nothing about
you and me

14 Stratus Master 1

old
bleed
almost
down into the ground with tha centipedes,
a memory
a life that seems distant and reminiscent
i was supposed to grow up
but i didn't
found myself in clutches of a tempest
and a timpani
a beating slightly different
and altruistically consistent
i stood up for my penitence
with many temperaments and
some alone were so abhorrent
that i felt so different

even than the night Before....
cause i had a fight with my own mind's open doors
course down to tha store and get some chlorine cause i need some chores
life's getting boring i just
Can't take it anymore and
storing up tha ways of forced grace never paid off

i seek, like an employee with a
sudden layoff
needed it tho because they haven't had a
day off
in years
and in the sunken
fallacy they couldn't take off

Spray down your calories
in cake sauce factories
in that time
you will find
you were just a battery
emitting zaps casually that
we call our anatomy
and at that i
then lapse
a Saturn Ring it had ta be
and i didnt notice, but it was floating after me
Mastering my own mind that i thought i was battling
and after these words
all ya heard was tha back o' me
high up in the mountains at a
random fish hatchery

Options!
Options!

me
it might take me very long to see
but i see ya
there you are standing underneath that tree
i be you oh!
pretending you were never close to me
so see-thru
how can i express camaraderie
from an igloo?

i know you have options but you
didn't choose me that's why i'd
rather hunt you tonight
degradation's handin' you another last key and
this time you won't be as polite
i know i got close to you a
time or two it was the
last chance of my life
so i tried and
if i have to be just a memory let me
remember you a thousand times oh a
thousand times

yeah...

let's do this again!

i saw you at the auction and we
didn't leave together and it
kind of rather blew my mind
i placed a bid on you and tha
bid came thru but at the
last second it declined
i know i needed offerings of peace and glee
and without tha all tha razor-sharp tines
and right before the contract pen in hand that's when you
thought about it twice and resigned

well

i know you have options but you
didn't choose me that's why i'd
rather hunt you tonight
degradation's handin' you another last key and
this time it won't be as polite
i know i got close to you a
time or two it was the last chance of my life, so i tried

and if i have to be just a memory
let me remember you a thousand times
oh a thousand times
